I am an aspiring SQL Developer with hands-on experience in database design, query optimization, and data management using SQL Server.

Through my role as a SQL Project Trainee at Photon, I gained real-time experience working on database tasks, writing complex queries, and supporting project modules.

I also have additional exposure to frontend development and UI/UX, which helps me understand application workflows end-to-end.

Skilled in SQL, Python, JavaScript, Power BI, and tools like SSMS.

I am actively seeking SQL Developer, Database Developer, or Data Analyst roles where I can apply my technical skills and continue growing in the data domain

Experience

Core Idea Innovations private limited

Aug '22 – Sep '22

UI Designer • Chennai, India

- Designed UI Using Flutter flow
- Prototyping and User testing

Photon

Jul '25 – Dec '25

SQL project trainee • Chennai, India

- Project Trainee – PhotonAs a Project Trainee at Photon, I contributed to different stages of the development lifecycle.
- My responsibilities included:Understanding project requirements and assisting in the design and implementation of modules.
- Developing features using company-standard coding practices and tools.
- Supporting the team in debugging, testing, and validating application performance.
- Preparing documentation, reports, and updates for ongoing tasks.
- Collaborating with senior developers to learn real-time project workflows, agile practices, and best development standards.
- This role helped me strengthen my technical skills, problem-solving ability, and understanding of real-world project environments.

VR Della Smart Tech

Jun '24 – Jul '24

Frontend Web Developer • Trichy, India

- Web Development Intern – VR Della, Trichy (2024)During my one-month internship at VR Della, I was involved in the complete front-end development process.
- My key responsibilities included:Designing and developing responsive web pages using HTML, CSS, JavaScript, and basic Bootstrap components.
- Supporting the development team in implementing UI features for live projects.
- Debugging issues, optimizing code, and ensuring cross-browser compatibility.
- Understanding client requirements and converting them into clean, user-friendly web interfaces.
- Learning project workflow, documentation, and version control tools like Git.
- This internship strengthened my foundational web development skills and gave me real-world experience working in a professional environment.
